Posted Dec. 26, 2023, set to expire May 12, 2024

The University of Kentucky Department of Family & Community Medicine (DFCM) is seeking a qualified family physician to join our Lexington-based clinic. A successful candidate must be committed to excellence, delivering comprehensive primary care in an outpatient setting at our UK Turfland location.

With several clinics in the state, we serve as leaders at UK HealthCare, a \$4 billion health system, in its primary care delivery strategy by implementing value-based clinical redesign and population medicine programs. We have aligned our clinical approach to enhance value-based quality measures through pre-visit planning, comprehensive nurse assessment, and a UK HealthCare Population Health team involving social workers, community health workers, and RN care managers. We are a national leader in transitional care management and its impact on unnecessary hospital readmissions. Our department's clinical volume includes over 100,000 annual visits and over 2,500 hospital discharges across our 5 current clinics and 2 hospital services.

We offer competitive compensation based on rank and experience and an excellent benefits package that includes health, dental, vision and life insurance; disability and malpractice insurance; a generous retirement plan; continuing education; paid time off and more.

The review of applications will begin immediately and will continue until the position is filled. Rank and compensation are commensurate with experience. Please include cover letter and CV along with application
