Job Description

The Spinal Cord and Brain Injury Research Center (SCoBIRC) at the University of Kentucky invites applications for a tenure track faculty position at the ASSISTANT PROFESSOR level. Extramural funding is not required. Competitive start-up funds and appropriate space will be offered.

As a part of the long-standing commitment of the University and the Commonwealth of Kentucky to translationally oriented traumatic brain and spinal cord injury research, SCoBIRC offers a wealth of resources for neurotrauma research. Candidates must possess a Ph.D., M.D., or equivalent degree.

The successful applicant is expected to develop and sustain a research program with external funding in the field of neurotrauma. This program should both complement and enhance the existing expertise within the Center. Candidates whose research augments the Center's established strengths in preclinical spinal cord injury are of particular interest. This includes those engaged in both mechanistic and translational research in autonomic systems, chronic recovery and rehabilitation, glia, inflammation, metabolism, neural repair and plasticity, regeneration.

Interested individuals should submit a statement of research interests, curriculum vita, and the names of three references. Applications will be reviewed beginning March 15, 2024, and the search will remain open until the position is filled.
