Job Description

Position Summary

The Department of Pathology and Anatomical Sciences of the Jacobs School of Medicine and Biomedical Sciences at the University at Buffalo (UB) has an open position for a new instructor who will teach medical, dental, and undergraduate students in the anatomical sciences. This is a full-time, 12-month instructor position (permanent position possible). Lecture/lab coursework involves anatomical disciplines including gross anatomy, histology, and neuroscience. The applicant must have a proven track record in skilled teaching of anatomical sciences at the professional school level, and familiarity with computational methods applied to the anatomical sciences.

UB is the flagship teaching and research campus of the State University of New York system, the largest such system in the nation. Jacobs School is expanding and integrating into the Buffalo
