Job Description

The Jacobs School of Medicine and Biomedical Sciences, Behling Simulation Center, seeks to fill a dynamic and essential role within the center. Located in the vibrant Jacobs Medical School Building downtown, the Operations Specialist's primary duties will be to support the clinical scenarios occurring in the center, particularly they must have the ability to prepare, operate and maintain the mannequins which are used in teaching scenarios. They will maintain the facility in an organized and clean manner, ensuring that the facility is stocked with disposable and other equipment needed for these scenarios.

This position will:

- Work with faculty and staff on the development of non-existing procedure trainers and modifications of existing trainers.
- Demonstrate and teach technical aspects of simulation and operations to faculty members and other users.
