Job Description

The Department of Pediatrics, University at Buffalo (UB), Jacobs School of Medicine and Biomedical Sciences and Oishei Children's Hospital of Buffalo are recruiting a full-time clinical faculty physician in Pediatric Rheumatology. The candidate must hold a medical degree and be board-certified/board-eligible in Pediatrics and in Pediatric Rheumatology. Clinical responsibilities will include outpatient clinics and inpatient consultations. Teaching responsibilities include medical students, pediatric residents, and allergy/immunology fellows in ambulatory, inpatient and didactic settings. The

successful candidate will join a team including our current Pediatric Rheumatologist and three Allergist/Immunologists in the Division of Allergy/Immunology & Rheumatology. The rheumatology service provides care for a diverse patient population with juvenile idiopathic arthritis, lupus and scleroderma, with about 1700 visits in 2020 and more than 500 patients in infusion suite. We collaborate with pediatric nephrology in a combined lupus clinic, and are launching a pain management program with physical therapy, occupational therapy and psychology integration, to serve patients with pain amplification syndrome.
