Job Description

The Department of Neurology is seeking an Assistant Professor to design, conduct and interpret original research in neuroimaging biomarkers. The faculty member in this position will report directly to the Chair of the Department of Neurology. As the faculty member will share laboratory space with a senior faculty mentor, the faculty mentor will assume the administrative direction of the faculty member. Requirements of the position include developing an independent research program investigating neuroimaging biomarkers. This position will also maintain experimental records, protocols, and analyses, maintain productivity in research and compete successfully for extramural funding, as well as supervise laboratory technicians and other personnel in carrying out laboratory procedures and experimental studies. Please include a CV along with application.

The University of Kentucky considers the health, safety and well-being of our entire community to be a top priority. In alignment with this priority, all new hires must provide proof of COVID-19 vaccination or obtain an approved medical or religious exemption as a condition of employment. For areas that fall under the federal CMS mandate, start of employment cannot occur until two weeks after receiving the
