- Ongoing clinical, peer collaboration
- Opportunities for growth and development of clinical skills

BMC members have opportunities to diversify their work experience by being actively involved in medical education as well as research through academic partners in the medical school and the private sector in accordance with previous expertise and interest.

We are committed to a professional environment that is positive, respectful, cohesive and supportive of cultural and individual differences in the service of our clinical and academic goals. Research interest and experience is always valued but not necessary for this position. Opportunities exist to collaborate on active nationally funded multi-site research.

About The University at Buffalo

The University at Buffalo (UB) #ubuffalo is one of America's leading public research universities and a flagship of the State University of New York system, recognized for our excellence and our impact. UB is a premier, research-intensive public university dedicated to academic excellence. Our research, creative activity and people positively impact the world.
