ideal candidate will hold a medical degree and be board certified in either pediatrics or internal medicine, and in allergy/immunology.

Clinical responsibilities will include:

- Outpatient clinics and inpatient consultations.
- Teaching responsibilities include medical students, residents and fellows in ambulatory, inpatient and didactic settings.

The Division of Allergy/Immunology & Rheumatology provides care for a diverse patient population with asthma, atopic diseases, and primary immune deficiencies. We have an active oral immunotherapy program, with a strong infrastructure. We are a New York State SCID Newborn Screen Specialty Care Center and a FARE Network Center of Clinical Excellence. Our division collaborates closely with the allergy physicians in the Department of Medicine to train our fellows in our ACGME-accredited, combined Pediatric-Medicine Allergy/Immunology Fellowship Program.

UBMD Pediatrics is one of 18 practice plans within UBMD Physicians' Group, the single largest medical group in Western New York. We provide premier health care to infants, children, adolescents and adults. In addition to primary care pediatrics, we have 17 pediatric subspecialties. Our physicians make up the academic teaching faculty within the Department of Pediatrics at the Jacobs School of Medicine and Biomedical Sciences at the University of Buffalo and at Oishei Children's Hospital. For more information regarding UBMD Pediatrics, please visit UBMD Pediatrics.

About the Buffalo/Niagara region

Buffalo is the second-largest city in New York State and is located in the western region on the shores of Lake Erie, upriver of the majestic Niagara Falls. Buffalo - the City of Good Neighbors - is a big city with a rapidly growing economy, vital academic health sciences center, outstanding public schools, and modest cost of living. Buffalo-Niagara, a region of 1.2 million people, is home to world-class art galleries and museums, a comprehensive city-wide system of parks and green space designed by renowned landscape architect Frederick Law Olmsted, a vibrant theater and music community, an abundance of restaurants for every palette, and major and minor league sports teams. Buffalo is home to iconic historical landmarks, diverse attractions, and hosts many annual cultural events. Buffalo is close to two significant wine growing regions-Niagara Escarpment and the Finger Lakes region. In addition, the Adirondack Mountains are half-a-day's drive from Buffalo. Rich in natural resources and beauty, the Buffalo Niagara area is a four-season region that offers the best for seasonal sports enthusiasts. Due to its mild temperatures, low risk of natural disasters, abundant fresh water, and clean energy production, Buffalo is a great place to work, study and live - going from "Punchline to Lifeline".
