extramurally funded research programs, and building strategic research collaborations inside and outside the institution, our aim is to develop a leading primary care research program. Tenure track faculty will dedicate the majority of their time to research, but also to make significant contributions to the education mission of the Department. Applicants with expertise in community-engaged research, implementation science, mixed methods, health equity, primary care research, and health services research are encouraged to apply. The Department conducts innovative, high-impact, health outcomes and health services research in areas such as: dissemination and implementation of preventive services; alcohol and substance use disorders; maternal/ child health; clinical health information technology; telehealth; primary care redesign; health disparities and equity; and clinical communication in complex disease.

DFCM operates 10 clinical practices, including a designated federally-qualified health center, with over 60 faculty and 28 residents. The DFCM is an exceptional department in an exceptional environment. It fully integrates foundational and clinical science to prepare students to practice personalized medicine. Our department faculty members continue to advance knowledge of best practices in primary care through nationally-funded efforts, such as the development of the Ohio Primary Care Innovation Network. Ongoing collaborations between the Department of Family and Community Medicine and the Divisions of General Internal Medicine and Ambulatory Pediatrics seek to bolster medical research in primary care. Together, our successful efforts have resulted in major increases in published research and significant gains in grant support for health services and implementation science research. Faculty will have opportunity to collaborate with this wide network of outstanding clinicians and investigators across OSU. They will have access to university resources including the Center for Clinical and Translational Science (OSU's Clinical and Translational Science Award from the NIH), Research Informatics Services, and the Clinical Trials Management Office.

Why work for The Ohio State University Wexner Medical Center:

At The Ohio State University Wexner Medical Center you will find more than a job – you can establish a career that allows you to actually change the face of medicine. As central Ohio's only academic medical center, we emphasize learning, development and innovation in order to offer the very best in personalized care to over 1.7 million patients each year. There's plenty of opportunity for career growth too, because Ohio State's Wexner Medical Center encompasses seven hospitals, fourteen primary care offices, a walk-in clinic, two After-Hours Care locations and eleven multi-specialty clinics, as well as the College of Medicine, the School of Health and Rehabilitation Sciences, the health sciences

new and prospective faculty and their loved ones. Service offerings include dual careers partner consultations, identifying potential employers and/or employment opportunities, consultation and resources related to relocation, as well as identifying opportunities to engage on campus and in the surrounding community. While employment opportunities are not guaranteed, resources and consultation are provided to support the partners of new and prospective faculty as they are considering or transitioning to The Ohio State University.

In addition to being responsive to dual-career opportunities, we strongly promote work-life balance to support our community members through a suite of institutionalized policies. Ohio State is an [NSF ADVANCE](#) institution and a member of the [Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium \(HERC\)](#).

Columbus, Ohio

Located in Ohio's capital city, Ohio State's Columbus campus is near the center of a rapidly growing and diverse metropolitan area with a population of over 1.5 million. The area offers a wide range of affordable housing, many cultural and recreational opportunities, excellent schools, and a strong economy based on government as well as service, transportation, and technology industries. Additional information about the Columbus area is available [here](#). In addition to its Columbus campus, Ohio State has four [regional campuses](#) including Ohio State Lima, Ohio State Mansfield, Ohio State Marion, and Ohio State Newark, in addition to Ohio State ATI in Wooster.

All qualified applicants will receive consideration for employment without regard to age, ancestry, color, disability, ethnicity, gender, gender identity or expression, genetic information, HIV/AIDS status, military status, national origin, pregnancy, race, religion, sex, sexual orientation, or veteran status. Final candidates are subject to successful completion of a background check.
