coordination of care for diabetes complications screening and management, and comprehensive patient education plans.

The selected candidate will provide patient care to children and adolescents, as well as attend traveling diabetes clinics. The faculty member will also serve as an attending physician for the pediatric endocrinology service, supervising a team of students and residents, to provide on-call coverage. In addition, this position will also contribute to the education of future physicians by supervising students and residents assigned to pediatric inpatient and outpatient services. Research and academic opportunities are also available.

Please include a CV and cover letter along with application. Applications will be reviewed immediately and continue until the position is filled.
