**Apply By Email**

**Job Description**

The College of Medicine is currently seeking a strong researcher with experience in central nervous system metabolism to fill a full-time tenure-track position supporting our brain metabolism CoBRE. Duties include providing scientific and technical leadership in the management, design, and conduct of basic preclinical in vitro and in vivo neuroscience experiments in CNS metabolism research; preparing research articles and grant proposals for publication and funding; and participating in teaching, career development, and unit/college service activities. Must be NIH ESI or NI eligible.

Please include your CV and Cover Letter along with your application. This position will remain open until the appropriate individual is recruited. Applications will be reviewed immediately and will continue until the position is filled.
