Job Description

The College of Medicine Department of Internal Medicine is seeking a PhD Research Faculty member to be appointed at the Assistant, Associate or Professor level, Regular Title Series, Tenure-Track to the Division of Rheumatology with a joint appointment in Microbiology, Immunology, and Molecular Genetics.

Selected candidate will be expected to conduct innovative, rigorous, grant funded research and engage in scholarly activities (peer reviewed publications, presentations, etc.). Faculty member also will contribute to undergraduate teaching and behaviorally oriented training of UK medical students and research training of UK graduate students and postdoctoral scholars associated with the Divisions of Rheumatology and Microbiology, Immunology, and Molecular Genetics including mentorship programs, courses, workshops, and supervised research. Faculty members also are expected to engage in broader research and training initiatives across all 16 Colleges of the University of Kentucky, including Colleges of Arts and Sciences, Public Health, Pharmacy, Nursing, Communication and Information

Sciences, Health Sciences, etc. These initiatives include grant consultation and review; a dynamic speaker series and other enriching events like our annual UK Barnstable Brown Diabetes Center Symposium.

Support the clinical research mission of the Division through various roles, including development and supervision of clinical protocols, accrual of patients to clinical trials, and participation in regulatory oversight programs for clinical research.

Please include Curriculum Vita along with application. Applications will be reviewed immediately and continue until the position is filled.
