**Job Description**

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the Bluegrass Region of Kentucky. Recently ranked as one of the safest, most creative, and the brainiest cities in the nation, Lexington is an ideal location to experience the work-life integration that the University strives to provide its employees. See for yourself what makes UK one great place to work.

The University of Kentucky College of Medicine invites applications and nominations for the position of Assistant Professor, tenured track, in the Department of Physiology. This appointment will be a joint appointment with the Division of Biomedical Informatics in the Department of Internal Medicine. The preferred candidate will develop a basic research program with an experimental laboratory in which generation of data lends itself to advanced informatic analysis. For example, development of

bioinformatics or computational biology to better understand human disease, working towards personalized and translational medicine. Given this area of emphasis and the interaction of a basic and clinical departments, candidates that can bridge these disciplines will be favored.

The Department of Physiology is highly ranked in the Blue Ridge Institute metrics and is a multidisciplinary unit of highly productive faculty. The faculty have substantial extramural funds to support their research and are engaged in significant teaching efforts for undergraduate, graduate, and professional students.

Our research is enhanced by a highly collaborative environment with multiple Colleges. UK is one of only a handful of academic medical centers in the nation that have all health profession schools on one campus: Medicine, Dentistry, Nursing, Pharmacy, Public Health and Health Sciences. In addition, the department is well positioned to undergo substantial thematic growth under new leadership.

The Division of Biomedical Informatics is a unique department with a multidisciplinary faculty positioned for opportunities for interdisciplinary cross-talk and collaboration. The Biomedical Informatics Division is housed within the Department of Internal Medicine/College of Medicine and is embarking on a period of major expansion within the University. Efforts focused on the Biomedical Informatics expansion will create direction for the academic entity and stimulate research across the campus, building relationships and infrastructure for the success of this program.

The University of Kentucky is located in the heart of the Bluegrass Region, one of the top ranked areas in the country for quality of life. Additional information regarding the Department and the University are found at <http://www.uky.edu>. The review of applications will begin immediately and will continue until the position is filled.

Applicants should include the following:

- Cover letter
- Curriculum vitae
- Brief description of research interests (Specific Request 1)
- Contact information for three references or the inclusion of their recommendation letters (Specific Request 2)

Inquiries regarding the position may be submitted via email to [alan.daugherty@uky.edu](mailto:alan.daugherty@uky.edu)
