osteopathic physicians through a curriculum that emphasizes a robust and integrated understanding of basic and clinical sciences for practical patient care.

The successful candidate will collaborate closely with a team of dedicated faculty to design and deliver pharmacology content as part of a comprehensive, system-based medical curriculum. Faculty at MU-WCOM play a pivotal role in facilitating an in-depth comprehension of the human body's normal processes, as well as the integration and regulation of these processes in both health and disease. This role will primarily involve instructing students in concepts related to the pharmacology of human health and the mechanisms underlying the development of various disease states. While the position encompasses a broad range of pharmacology topics, a background in neuropharmacology is of particular interest to enhance the depth and breadth of our curriculum. Opportunities also exist for teaching within your area of specific expertise within pharmacology or related disciplines. If you are passionate about education, pharmacology, and positively impacting the next generation of medical professionals, we encourage you to apply and be a part of our academic community built on the inspired vision and values of our Franciscan heritage.

MU-WCOM, established as Indiana's second medical college in 2013, places a strong emphasis on holistic patient care, addressing the mind, body, and spirit to uncover the root causes of illnesses. MU-WCOM is housed in the state-of-the-art Michael A. Evans Center for Health Sciences, which features The Browning Anatomy Lab equipped with 36 cadaveric dissection stations, each with computer terminals. Additionally, we have The Hill Room Stimulation Center, offering students realistic, hands-on training in a safe and controlled environment. Our faculty and students benefit from access to nationally recognized hospitals, research facilities, community outreach clinics, and other medical organizations. Join us in shaping the future of medical education and healthcare delivery by becoming part of the MU-WCOM community.

### Essential Duties and Responsibilities:

- \* Actively engage the Catholic Franciscan mission and identity of Marian University by modeling the Franciscan Sponsorship Values and honoring the legacy of the founding congregation through transformative education, unity in diversity, leadership through service, integrating faith and life, and institutional policies.
- \* The successful applicant will provide instruction primarily to medical students in the DO program in various areas of pharmacology.
- \* Collaborate with other MU-WCOM faculty in the design, delivery, evaluation, and improvement of the curriculum.
- \* Ensure DO students grasp pharmacology for success in the NBOME, COMLEX-USA Level 1 exam, and clinical rotations.

**Assistant/Associate/Full Professor of Pharmacology  
Marian University**

- \* Demonstrate excellence in scholarly activity through the establishment of scholarship that involves students and leads to the creation and dissemination of new knowledge.
- \* Provide excellence in service to the University and community through involvement and leadership in committees and professional societies, and by providing mentorship to students.

**Required Qualifications:**

- \* Applicants must have a DO, MD, PhD, or PharmD.
- \* Candidates must have a strong interest in teaching. Special consideration will be given to those with experience in professional and/or graduate-level education. This qualified candidate should have a proven record of scholarly activity consistent with the rank of Assistant, Associate, or Full Professor.
- \* A background in neuropharmacology is of particular interest.

Review of applications will begin immediately and continue until the position is filled.

**For Consideration All Applications Require:**

- \* Cover Letter
- \* Current resume or CV
- \* Contact information of three professional references. The reference contact information must be entered after the application is submitted in the "My Presence" section of the applicant profile.
- \* Responses to the supplementary mission & identity questions.

Please Review Marian University's Mission & Identity Statement before responding to the supplementary questions on your application:
