Posting Detail Information

Position Summary

Computational Anatomist - [Department of Pathology and Anatomical Sciences \("PAS"\)](#) is seeking to hire a tenure track faculty member at the rank of **Assistant or Associate Professor**.

The successful candidate will:

- Develop and maintain a funded research portfolio
- Engage in a teaching program designed to support the missions of the Department (PAS) and School (UB)

Research:

- Must have research experience in anatomy and anatomical sciences, including application of computational tools and methodologies
- Working knowledge of computer programming, structural modeling, machine learning, and artificial intelligence (AI), etc.
- Strong candidates will endorse and embrace cross-disciplinary team science approaches to computational anatomy

Teaching:

- Teaching of gross anatomy to professional and graduate students is a requirement for this position
- Candidates will be expected to help in the design and implementation of a new computational anatomy course that focuses on the fusion of cadaveric and virtual models and leverages these approaches to support the education of graduate and professional students

Outstanding Benefits Package

Working at UB comes with benefits that exceed salary alone. There are personal rewards including comprehensive health and retirement plan options. We also focus on creating and sustaining a healthy
