Posting Detail Information

Position Summary

The University at Buffalo [Department of Pediatrics](#) Division of Behavioral Medicine seeks a **Research Assistant** to implement study protocols for studies involving food insecurity and obesity among women and children.

The position is available immediately and job duties will include:

- Mainly conducting research with an emphasis on adult and pediatric eating behaviors.
- Manage and analyze quantitative research data using the SAS program.
- Implement research study protocols, use innovative skills in recruiting, screening, scheduling, and assessing research participants.
- Work on research material development and preparation, conducting research participant interviews, administering measures, following research protocols, data collection, coding, and entry.
- Management and training of students.
- Attend research meetings, and conduct scientific literature searches.
- Complete daily research-related tasks in order to run the lab efficiently.

The ideal candidate is a motivated team-based worker with ability for independent direction when needed. Accommodating disposition and comfort with fast-paced, ever-changing environment and a large range of contacts. Must be available for occasional evenings and Saturday commitments.

This is a temporary position with a 12-month duration.

Outstanding Benefits Package
