Care and Pulmonary Medicine. Fellowship in lung transplantation, 3-5 years of experience in the care of lung transplant patients, and eligible for primary physician certification with the OPTN.

Candidates will be expected to play a leadership role in the growth and development of the lung transplant program as well as participate in the care of inpatients in the UK Lung Transplant program, the evaluation of patients for lung transplant listing both inpatient and outpatient, and outpatient post-transplant care. Candidates will have the opportunity and are encouraged to be involved in the teaching of University of Kentucky medical students, residents, and fellows. There are also opportunities to participate in patient-oriented research in the areas of advanced lung diseases, and lung transplantation. Salaries and academic rank are commensurate with experience.

University of Kentucky College of Medicine and UK HealthCare are located in the beautiful Bluegrass Region of Lexington, an ideal location to experience the work-life balance we strive to provide for all of our employees. The College of Medicine seeks qualified applicants who value its mission and share its commitment to creating an environment in which all members feel welcomed and valued. As an Equal Opportunity Action Employer, we strive to foster a community in which individuals of all backgrounds, identities, and perspectives can feel secure and welcome.
