Job Description

POSITION PURPOSE

A Level B/C academic is expected to make significant contributions to the teaching effort of a discipline, school, faculty or other organisational unit or an interdisciplinary area. An academic at this level is also expected to play a major role in scholarship, research and/or professional activities.

The Senior Lecturer in Anatomy is responsible for delivering advanced, high-quality teaching in anatomy and anatomical pathology within the medicine undergraduate program at the Jeffrey Cheah School of Medicine and Health Sciences. This role includes designing and developing course content, conducting lectures, seminars, and practical sessions, as well as assessing student performance. The appointee will also lead research activities in the field, supervise graduate students, and contribute to

departmental and university-wide academic initiatives. In addition, the Senior Lecturer is expected to engage in continuous professional development, foster interdisciplinary collaborations, and play a key role in the strategic growth and development of the School and University.

Reporting line: The position reports to Head of School

Supervisory responsibilities: Not applicable

Financial delegation and/or budget responsibilities: Not applicable

KEY RESPONSIBILITIES

1. Contribute to curriculum development, innovation, enhancement and quality assurance in the undergraduate and postgraduate curriculum
2. Develop and deliver innovative and excellent teaching, learning and assessment experiences for undergraduate and postgraduate students
3. Conduct high quality research, maintaining an active record of publication and building a profile of grants and PhD student supervision
4. Support the development and implementation of a research strategy for Jeffrey Cheah School of Medicine and Health Sciences consistent with the research priorities of Monash University Malaysia and Monash University
5. Participate in collaborations with other universities and with government, industry and/or civil society to drive research impact and educational excellence
6. Support the management of education, research and/or administration in the School through, for example, participation in committees

KEY SELECTION CRITERIA

Education/Qualifications

1. A medical degree and professional qualification or masters' qualification or a doctoral qualification (PhD) or equivalent qualification
2. Demonstrated experience in the development of curriculum content
3. A strong record of teaching which demonstrates a commitment to educational innovation.
4. An excellent research record, with a strong trajectory in publications, grants and PhD/Masters/Honours supervision
5. Experience in working with partners in universities, government and/or civil society
6. Demonstrated skills and experience in collaboration and teamwork
7. Eligible to register with the Malaysian Medical Council (if applicable)
