Job Description

A Level D academic (Associate Professor) is expected to make a significant contribution to all activities of the organisational unit or interdisciplinary area and play a significant role within their profession or discipline. Academics at this level may be appointed in recognition of distinction in their disciplinary area.

Given the very recent establishment of the Department and plans to establish a Centre for Global Health Equity at Monash Malaysia, the appointee would also be expected to contribute to the development of the Department / Centre. The Department / Centre plans to develop and deliver a unique interdisciplinary Masters of Global Health - and if qualified the appointee could also be

Associate Professor (Social and Structural Determinants
of Health Equity)
Monash University Malaysia

appointed as Course Coordinator.

This position is based at Main Campus, Bandar Sunway.

The appointee will contribute to the development and delivery of teaching and supervision in the new Master's in Global Health course. In addition, the appointee will be expected to undertake research in Global Health - ideally in collaboration with faculty across Monash and beyond. The appointee should have a track record of research in the broad area of global health equity. The appointee will also actively contribute to the development of the Department.

Reporting line: The position reports to Professor and Head, Department of Global Population Health

Supervisory responsibilities: Not applicable

Financial delegation and/or budget responsibilities: Not applicable

KEY RESPONSIBILITIES

1. Contribute to curriculum development, innovation, enhancement and quality assurance in the undergraduate and postgraduate curriculum
2. Develop and deliver innovative and excellent teaching, learning and assessment experiences for undergraduate and postgraduate students
3. Conduct world class research, including through the development of new research in specialist subject areas, writing reports to grant-making bodies as needed, maintaining an active record of publications and building a profile of grants and PhD student supervision/mentoring
4. Contribute to the development and implementation of a research strategy for Department of Global Population Health consistent with the research priorities of Monash University Malaysia and Monash University
5. External-facing activities include: contribute to the development of strong collaborations with other universities and with government, industry and/or civil society to drive research impact and educational excellence; attend and give presentations at external conferences; participate in peer review of publications; review grant applications
6. Contribute to the management of education, research and/or administration in the School, including coaching, mentorship, leadership and effective performance management
7. Additional duties as appropriate

KEY SELECTION CRITERIA

Education/Qualifications

**Associate Professor (Social and Structural Determinants
of Health Equity)
