Job Description	

Assistant, Associate, Full Professor - Department of Biomedical Informatics
University at Buffalo, The State University of New York

This position will be focused on research and education related to Artificial Intelligence and Data Science in Biomedical Informatics. This is a tenure track position in Biomedical Informatics and as such faculty are responsible for obtaining extramurally funded research program and for teaching in our Undergraduate, Masters' and PhD programs as well as mentoring post-doctoral fellows.

This position will involve the management of the programming staff and teaching in our Jupyter notebook skills building course each summer. Working with a diverse group of contributors from the University at Buffalo and around the nation. The individual will work directly with Dr. Peter Elkin on the Biomedical informatics program.
