Job Description	

Position Summary

This is a postdoctoral training experience in a multidisciplinary research team. The **Postdoctoral Associate** will be supervised by Dr. Leonard Epstein, chief of the Division of Behavioral Medicine, UB [Department of Pediatrics](#). Dr. Epstein's research interests focus on health behavior change and determinants of eating, physical activity and drug self-administration.

The scholar will work on Dr. Epstein's research projects and develop new independent research. It is common to work more on ongoing projects in the beginning of the postdoctoral experience. The goal is for the Postdoctoral Associate to become an independent investigator.

[Dr. Epstein](#) is an internationally recognized authority in the fields of childhood overweight, physical
