- Evaluate and monitor individual student progress and provide feedback to sustain student success.
- Conduct high-quality research in his/her own field and publish research outcomes in reputable journals and conferences.
- Pursuing research in relevant biological sciences and/or pedagogy. Providing service to the College, the University, and the community at large.
- Supporting and expanding curricular development in Anatomy in consonance with other basic medical science subjects and linking to clinical sciences.
- Support and participate in accreditation initiatives.
- Maintain relationships with students that are conducive to learning.
- Perform miscellaneous job-related duties as assigned.

Job Requirements:

- Basic medical degree (MBBS/MD).
- Earned Ph.D. Degree in Anatomy or a closely related field from an accredited institution (THE or QS World University Ranking).
- Displays evidence of his ability to teach in one or more of the following areas: gross anatomy (including cadaveric dissection), neuroanatomy, histology, and embryology.
- Previous experience teaching in an integrated systems-based curriculum will be highly desirable.
- Must be strongly committed to teaching excellence and laboratory-based instruction, dedicated to continued professional development and scholarship, and have a broad-based knowledge of anatomical sciences.
- Have a strong commitment to working in a multidisciplinary and collaborative setting. Demonstrated ability in written and oral use of the English language is required.
- Advanced use of technology in the education process (delivering classes via presentations, using e-learning systems, reports, etc.).

Skills Required:

- Ability to communicate effectively in English orally and in writing.
- Dedication to continued professional development and scholarship.
- Engaging in scholarly work that is of very high quality, as evidenced by external peer review.
- Exhibit strong pedagogic skills and remain proficient and current in their disciplines.
